

BMP Summary Sheet

MS4 Name: University of Minnesota, Twin Cities

Minimum Control Measure: 4-CONSTRUCTION SITE STORMWATER RUNOFF CONTROL

Unique BMP Identification Number: 4D.01 (MS4 2020: 19.10)

BMP Title: Procedures for the Receipt and Consideration of Reports of Stormwater Noncompliance

BMP Description:

Standard Operating Procedure EM-4.02-001 Receipt of Construction Stormwater Non-Compliance details the process for the receipt, investigation, and follow up for reports of potential non-compliance.

University Building Standards Division 31 requires construction projects to be designed in compliance with the current MPCA Construction Stormwater Permit requirements.

Compliance with Division 31 is required to obtain a Grading permit.

Grading permit compliance is inspected and enforced by the University of Minnesota Building Codes Department.

Measurable Goals:

Receipt, investigation, and follow up for reports of potential non-compliance, annually

Timeline/Implementation Schedule:

Receipt, investigation, and follow up for reports of potential non-compliance, as needed

Specific Components and Notes:

SOP EM-4.02-001 Receipt of Construction Stormwater Non-Compliance, updating done by University Civil Engineers

Grading permit, compliance and enforcement is done by the University of Minnesota Building Codes Department

Responsible Party for this BMP:

Name: Catherine Abene, P.E.

Department: Principal Civil Engineer, Energy Management
